Period for Reply -- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 02 September 2008.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 1-5, 7, 8 and 10 are again rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

It is not clear what is meant by the phrase “the residue of an amino acid”. Does the fragment include amine, carboxylic acid, esters, alcohols even hydrogen.

Applicants' Have been noted and considered but are not deemed persuasive of patentability. Even as amended it is still not clear what this phrase means and how it would not read on the prior art.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-5, 7, 8 and 10 are again rejected under 35 U.S.C. 103(a) as being unpatentable over Ascher et al US 769804 and/or Berry et al US RE39128.

Ascher et al and Berry et al teach antibacterial mutilin compounds and compositions corresponding to those recited in the claims. See, for example, column 1 line 1 to column 2 line 34 of Ascher et al and column 2 lines 2-52, column 3 lines 5-10 and examples 10, 15 and 37 of Berry et al.

While the alkyls on the corresponding R₅ substituent may differ in number, such differences in closely structurally related compounds would have been obvious to one of ordinary skill in the art as the resulting products would not have been unexpected.

Regarding applicants' comments it is noted that the claims as presently amended still read on the prior art where the residue of an amino acid corresponding to applicants' R₅ is, e.g. -(C=O)-alkyl. It is noted that this particular residue of an amino acid is also bound to nitrogen of the N-ring and is missing the -OH group.

Regarding applicants' additional comments regarding data, it is noted that it are not in proper affidavit form, does not show whether the closest prior art was compared nor a nexus to the claimed utility and as such not considered probative to the method claim 10.

No claim is allowed.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
